Colonel J. Edgar Thompson. A private telegram received at noon states that Colonel J. Edgar Thompson, President of the Pennsylvania Rallroad, and other ailroad men will arrive here at 5:30 P. M.

Thursday's Noon News. THE MCMILLAN-PINCH-BACK CASE.

Washington, December 4.—The Senate Committee on Elections, before which the case of General McMillan and Pinchback comes, consists of Morion, Carpenter, Logan, Alcorn, Anthony, Sumner, Mitchell, Hamilton and Saulsbury—the last two Democrats.

The Radicals express great confidence that Pinchback will be voted in, while others thick not unless it be after a long delay and

mittee of Transportation.

In the House a committee of seven has been ordered on Back Pay and Salaries. Dozens of bills have been introduced to be referred to the committee when named.

MORE OF THE BUTCHERY. NEW YORK, December 4. - The Sun says a New York, December 4.—The Sun says a private letter has been received in the c ty showing that the Cubans have partly avenged the murder of the patriots taken on the Virginius. On learning of their execution, Maximo Gomez attacked and captured a number of fortified camps of Spanlards in the vicinity of Santiago. He made over two hundred prisoners, and marching them close up to Santiago de Cuba, shot them in full view of the Spanish forts, then sent in word to Burriel to come out and bury them. Burriel left immediately for Havans.

Oliver Ames succeeds Oakes Ames as trustee of the Union Pacific Railroad.

PRESIDENT'S MESSAGE ABROAD.

LONDON, December 4, 5 A. M.-The Times LONDON, December 4, 5 A. M.—The Times, in a leader on President Grant's message, says the excessive privileges in regard to the freedom from search claimed for vessels bearing the American flaz, would confer immunity on an open pirate. Such pretensions are indeed short sighted for a moment believe Congress will adopt the suggestion to prevent national banks from paying interests on deposits. We do not agree with the President's financial remarks generally, and think he is wrong in attributing recent tropbles to the peculiar character of currency in his advice to return to specie payments. troubles to the peculiar character of currency in his advice to return to specie payments would be more satisfactory if the President told the country how to do it. The article praises the message for its moderation of tone in general, and on the Cuban question in particular. England will unreservedly support the policy which requires that Spain must really as well as nominally control Cub. The Daily News says the President's language concerning the Virginius is moderate and dignified. The Daily Telegraph sees in the demand for abolition of slavery in Cuba menace, which will greatly increase difficulties of the Castelar situation. The Standard thinks the only result of the threatsagainst Spain will be to hinder an adjustment.

AM engaged in the Manufacture of the Celebrated Family Medicine, known as the Calboan Liver and Anti-Billous tills, unner the supervision and assistance of Dr. Cathoun himself. This Pilh has been in use for the last thirty-live years and has taken precedence over all other Family Preparations, by all that save used them. One fact should supersede any amount of certificates, and that fact is this: Dr. Cashoun has been physician to the Fulton County Prison for over seven years, when the number of prisoners ranger from 30 to 70, laboring under all the diseases inciden to this climate. With but few exceptions, they have all been treated with this Pill, and actorishing transport of the strength of the streament. This fact is worth any amount of testimonists.

THE HUMAN KITCHEN AND ITS DUMB WAITERS - The body is supplied with ali-ment by vessels which connect the stomach and its auxiliaries with the venous system and, so to speak, perform the office of dumb waiters in a restaurant. In other words, these media of communication between the animal kitchen and its dependants supply to each member and organ, near or remote, the quantity and kind of sustenance required to keep it going. When the stomach is derelict in its duty, or the dumb waiters inert or obstructed, it is the peculiar prevince of Hostetter's Celebrated Stomach Bitters to strengthen and regulate them. Hence its marvelous cures of chronic indigestion, and the emaciation, debility and languor which are generally its concomitants. It is, moreover, a powerful alterative and corrective, and the rapidity with which it checks irregularities of the liver and be wels, and traces and invigorates the nervous system, is a media of communication between the animal and invigorates the nervous system, is a marvel, not only to the general public, but to professional men. dec3-deod1w&1t.
